**3S 2010 (International SUMMER STUDENT SEMINAR)**

Dear Colleagues!

The International Society of Photogrammetry and Remote Sensing (ISPRS) and the Siberian State Academy of Geodesy would like to welcome participants to the “**3S 2010**” - International SUMMER STUDENT SEMINAR Novosibirsk, Russia, 21- 25 September, 2010.

**The program of the “3S 2010” includes:**

- lectures and master classes by world known scientists;
- reports and round-talk tables of post-graduate students, masters and bachelors representing various countries and scientific schools (Austria, Belarus, China, Germany, Israel, Italy, Russia, Kazakhstan, Ukraine, USA);
- cultural program.

**3S focuses on the following topics:**

- Remote Sensing and Photogrammetry
- Disaster management
- Automatic updating of spatial data bases.

The main lectures of the 3S are:

- **Dr. Fabio Giulio Tonolo** (Geometric processing of high resolution satellite images for mapping purposes. Processing of satellite imagery (both optics and radar) for the extraction of thematic information. Application and customization of geomatics techniques for specific projects);
- **Andrea Ajmar** / Researcher (Development and implementation of SDI mainly dedicated to emergency response. Development of E-R model for geographic data storage. Multiuser geodatabase management. Development of software procedures in support of early-warning and early-impact analysis);
- **Dr. Ammatzia Peled**, ISPRS Second vice president (Geographical Information Systems, Remote Sensing, Digital Cartography, Digital Photogrammetry, Flying & Airphotography)
