Dear Colleagues! Dear Sir or Madam!

Siberian State Academy of Geodesy and ITE Siberian Fair
are pleased to invite you to the International Specialized Exhibition and Scientific Congress

"GEO-SIBERIA-2011"

Date: 27 – 29 April 2011

Venue: 220/10, Krasny Prospekt, Novosibirsk, Russian Federation

"GEO-SIBERIA" International Specialized Exhibition and Scientific Congress, holding at seventh time, became immensely popular among professionals of geo-community as example of successful **collaboration of scientists from over the world.**

Having evaluated the "GEO-SIBERIA" contribution to progress of geo-industry in Russia and its extensive position in promoting the branch opportunities in solving a wide range of different tasks (including building, industry sector, subsurface management etc) forum was supported by the following leading societies and associations: DVW, FIG, ICA, ISPRS, EAGE, DGfK, GIS Association.

Prof. **Stig Enemark**, FIG President, has emphasized: "Within a short span of

time, five years, you have managed to raise the exhibition and congress to a high level and success. This exhibition is not only successful but it is known in Russia and, moreover, throughout the world. I knew about this forum only in 2008 but soon I understood that this exhibition and congress provide with information relevant not only for Russian professionals but also for the whole world."

"This exhibition is a good platform to get a look into the future technologies" – has shared his impression. **Mr. Michael Mudra**, Vice President of EMEA, **Leica Geosystems AG** (General sponsor of the EXPO). "These technologies may be introduced immediately into production. I see a project capacity that is expected to become the major surveying expo in Russia."

"GEO-SIBERIA" created its own history over the past six years. It covers the issues and tasks solving, meeting of colleagues and friends, new acquaintances and new partners.

The best approval of high prestige and effectiveness of the "GEO-SIBERIA" exhibition is the listing in the event calendar of leading companies:

Leica Geosystems AG, Institute for Micro Process Engineering, INTERGRAPH, Trimble, Hochschule Karlsruhe, South, GEOMAX, GeoTop, GIM International, GEO connexion, CHC Coordinates, Ashtech, navXperience gmbH, DVW, IXSEA, ERDAS, Magellan, Prin, Geostroyizyskanija, Navgeocom, Viskhagi, ScanEx, GEO Alliance, ZapSibLesProject, Rakurs, Panorama, Sovzond, Neva-Technology, Pentax, Geolidar, GFK, UganskNipi, Data+, Zemlya, Uralgeotechnologies etc.

Within 2005-2010 years **the exhibition** attracts increasingly professionals and scientists from more than **550** companies, **45** Russian and foreign cities, and the scientific congress - **778** universities and **60** companies from Russia and abroad.

Geography of "GEO-SIBERIA": Canada, France, Austria, Australia, Hungary, Germany, Denmark, Holland, Israel, China, Mongolia, Poland, USA, Czech Republic, Sweden, Switzerland, CIS countries- Azerbaijan, Kazakhstan, Kyrgyzstan, Uzbekistan, Ukraine, Belorussia.

As a result of six-year Congress activity, more than **2500 reports** have been presented, **52 proceedings** were published and a number of CDs were released.

"GEO-SIBERIA" being exclusive exhibition of such profile beyond the Urals also presented innovative projects oriented on Siberian subsurface resources management.

Most exhibitors presented of wide range of their products and equipment having no analogue on the Siberian regional market.
